Education

Federal University of Uberlândia (UFU)
Bachelor of Science in Computer Science

Uberlândia, MG, Brazil
Jul 2021 - Present

Centro Paula Souza (ETEC)
Technical Degree in Information Technology

Barretos, SP, Brazil
Completed

Fluency Academy
Advanced English Course (300 hours)

Remote
Completed

Professional Experience

Landix Sistemas
Technical Support Intern

Uberlândia, MG, Brazil
Feb 2025 - Feb 2026

- Resolved incidents in on-premise and cloud applications (AWS EC2, S3, CloudWatch), ensuring system stability and strict SLA compliance.
- Analyzed and fixed data inconsistencies by executing complex queries in Oracle, SQL Server, and PostgreSQL databases.
- Validated APIs via Insomnia and provided direct technical customer support, focusing on log analysis and production maintenance.

Compass UOL
Blockchain Intern

Remote
Apr 2024 - Sep 2024

- Developed and maintained RESTful APIs using Node.js and JavaScript, implementing authentication, authorization, and data modeling in MongoDB.
- Built and deployed Smart Contracts in Solidity, executing tests and providing deployment support to ensure the functionality of decentralized applications (dApps).
- Worked in an Agile environment using Git/GitHub for version control, focusing on continuous delivery and bug resolution.

Federal University of Uberlândia (UFU)
Academic Researcher & Teaching Assistant

Uberlândia, MG, Brazil
Jul 2021 - Present

- Conducted applied research involving data analysis and the gathering of performance metrics.
- Facilitated undergraduate classes as a Teaching Assistant for Algorithms and Data Structures, helping students solve practical logical problems.

Featured Projects

2026 World Cup Prediction Platform
Creator & Fullstack Developer

Personal Project
Web Development

- Independently developed an interactive platform for match predictions, integrating complex sports business rules with end-to-end web development.

Soccer AI
Creator & Developer

Personal Project
Computer Vision & Data Science

- Built a computer vision pipeline capable of extracting physical and tactical metrics from soccer matches by processing solely broadcast videos.

Skills

- Technical:** JavaScript, Python, Node.js, AWS (EC2, S3, CloudWatch), SQL (Oracle, PostgreSQL, SQL Server), NoSQL (MongoDB), Git, Docker, Solidity, Java, C, HTML/CSS, Linux.
- Languages:** Portuguese (Native), English (Advanced - Reading, Writing, and Speaking), Spanish (Basic).
